C Reading Comprehension

3 Read the following, then answer the questions: (4.5 Marks)

Keeping the environment clean is important for everyone who lives on the Earth. Man has invented a lot of useful things that serve all people, but at the same time, they are harmful to the environment. Cars are useful because they carry us from place to place but they're harmful to the environment because they give out the burning fuel which causes pollution to the air, man, and animals. Factories make things for people and for the

country as they help increase the country's money. But there are some factories that throw their waste and rubbish in the water, and this kills huge numbers of fish, too. We should plant more trees and stop cutting them down because trees are a source of life as they give out oxygen and take in carbon dioxide.
